- The Name: Our friend Matthew Rorick of [Forlorn Hope](#) tends these old, own-rooted vines on his property in Murphys, CA - historic Sierra Foothills Gold Country, a rare California vineyard site comprising the highly unusual combination of limestone and schist soils. When we saw the Chardonnay block for the first time, without knowing what variety it was, we knew we had to work with it. We're so excited and honored to work with this no-makeup, true-California, liquid gold.
